Dear Betsey,

I want to thank you again for your wonderful performance of Mother Jones at Columbia College Chicago. Our students and faculty gained so much from your exceptional presentation.

Your presentation was powerful and captivating. The performance and your subsequent discussion with the audience was engaging, challenging and relevant. The issues that emerged as you brought Mother Jones to life were so contemporary -- the questions of social justice, women's history, cultural critique, politics, and artmaking really resonated for us.

I would recommend this program to any college or university interested in Women's Studies, History, Labor History, and Cultural Studies. You are marvelous performer and a generous spirit. I look forward to making WomanLore a regular part of our Cultural Studies, Women and Gender Studies and Senior Seminar curriculum.

Sincerely,

Ann Hetzel Gunkel, Ph.D.
Director of Women's & Gender Studies
Humanities Coordinator
